Medical Billing & Credentialing Simplified for Healthcare Providers

MIU Medical Billing is a leading medical billing and credentialing company serving healthcare providers nationwide. We have extensive experience and expertise in medical billing, revenue cycle management, and credentialing services. Our mission is to maximize our client's revenue, reduce denials, and provide seamless credentialing services so healthcare providers can focus on delivering quality patient care.

Get Paid Faster with Our Medical Billing A-Z Services

1. Medical Billing

- Charge entry
- Insurance eligibility verification
- Claim submission
- Denial management
- AR follow up

2. Credentialing Services

- Insurance credentialing
- Provider enrollment
- Ongoing credentialing maintenance

Revenue Cycle Management (RCM) That Takes Your Revenue to New Heights

Our end-to-end RCM services include:

- **Verification of patient insurance benefits**
- **Coding and charge capture**
- **Claim submission**
- **Reimbursement posting**
- **Denial management**
- **AR follow-up and collections**

We use advanced RCM technology and workflows to optimize the entire revenue cycle, reduce denials, speed up payment cycles, and improve revenue.

Your Specialty, Our Billing Expertise - It's a Perfect Match!

We have experience handling billing and credentialing services for:

- Multi-specialty medical groups
- Single specialty practices such as Internal Medicine, ObGyn, Family Medicine, etc.
- Specialists such as anesthesiologists, radiologists, pathologists,
- Emergency rooms and hospitals

Our tailored services ensure excellent billing and credentialing for any medical specialty.

Software to Maximize Efficiency Across the Revenue Cycle

We streamline workflows; we use the latest cloud-based practice management and EHR software ECW, Athena Health, Dr Chrono, Nextgen, and MD Land. This includes:

- Automated claim submission
- Custom reporting
- Online patient billing portals
- Integrated billing and credentialing

Medical Coding for Optimal Reimbursement - Our Specialty!

Accurate medical coding is critical to achieving maximum, timely reimbursement. Our certified professional coders have extensive experience in CPT, HCPCS, and ICD-10 coding across all specialties.

Our coding services include:

- ✓ Coding audits to identify opportunities for improved coding
- ✓ Coding education and training for your team
- ✓ Outsourced coding is managed seamlessly through our software
- ✓ Coding for optimal reimbursement in compliance with coding guidelines
- ✓ Coding to support quality measure reporting

The 911 for Your ER Billing Needs

Managing billing for a busy emergency room presents unique challenges that require specialized medical billing expertise. MIU Medical Billing provides trusted ER billing services, including:

- Coding for ER services like emergency visits, trauma, critical care
- Billing for ER physicians and out-of-network providers
- Strategies to reduce frequent rejections and denials
- Authorization assistance for complex ER cases
- Improved revenue capture for services and procedures
- Denial management for emergency/urgent care
- Reporting for ER operations and collections

Our ER billing specialists understand the nuances of emergency department coding and billing rules. We optimize your revenue cycle to account for the rapid pace and variable patient population that emergency rooms handle.

Credentialing Made Seamless for Comprehensive Payer Enrollment

Getting providers fully credentialed and enrolled with payers is vital for revenue. MIU Medical Billing offers end-to-end credentialing services:

- Payer enrollment and credentialing
- Ongoing profile maintenance
- Board certification tracking
- Recredentialing and revalidation
- Issue resolution and appeal assistance
- Credentialing for telehealth services
- Comprehensive credentialing reporting

Our experts handle the entire credentialing lifecycle, from initial enrollment to ongoing compliance. We ensure complete and accurate credentialing information is provided to payers.
